

European Cluster Collaboration Platform

**Access to information and networking support
for cluster organisations and their members**

ClusterCollaboration.eu

Collaboration is the key to innovation

ClusterCord Kick Off Conference, Nov 30th, 2010 - Székesfehérvár
Andreas Geiblinger - Clusterland Upper Austria Ltd.

European Cluster Collaboration Platform

Mission Statement

The **European Cluster Collaboration Platform**

within the context of the **European Cluster Excellence Initiative** provides **online quality information and networking support** for clusters organisations and their members aiming

- to improve their performance and
- to increase their competitiveness through the
- stimulation of trans-national and international cooperation.

Communities - European Cluster Colla...

Start Cluster Organisations Communities Information Marketplace Trainings

Communities

As a state-of-the-art tool, the collaboration platform offers the possibility for the cluster organisations and their members to engage in community activities.

These can be sectorally related (e.g. automotive community), geographically related (communities of clusters interacting in the same language, e.g. Danish clusters) or thematically related (communities build around a theme, e.g. "financing of cluster activities").

Here the members of the community can share information within a protected area with the help of functions like news, events, fora, library, good practices, polls, etc. On the platform, the cluster organisation itself is structured as a community with its members, enabling communication and information services for these-if desired.

Member ... Moderator ... All Communities

[Bio-Europe Conference 2010: 15th - 17th November, Germany](#)

11/10/10 6:23 AM

[Edit](#) [Access](#) [Delete](#)

BIO-Europe is Europe's largest partnering conference, serving the global biotechnology industry. The conference annually attracts leading dealmakers from biotech, pharma and finance along with the most exciting emerging companies. Produced with the support of BIO, it is regarded as a "must attend" event for the biotech industry.

15th - 17th November 2010

Munich, Germany (International Congress Centre)

[REGISTRATION NOW OPEN FOR INSME 2011](#)

11/8/10 6:48 PM

[Edit](#) [Access](#) [Delete](#)

The **International Network for SMEs (INSME)** will be holding its Annual Meeting in **Helsinki, Finland in May 2011**. The event is co-hosted by the European ProClusters Association – EPROCA (www.eproca.org).

The Annual Meeting is the right place to take stock of the main Network achievements, to increase knowledge sharing among the INSME Members, learning from other Members' experiences and from their case studies, also with a view to encouraging and accelerating cross border cooperation activities on a voluntary basis among them. But it is much more than this: for all innovation stakeholders and practitioners, including policymakers, international organisations, academic experts, business intermediaries, and knowledge networks, it represents the ideal venue to meet the right players, to discuss the right topics and potentially to identify the right talents, partners, clients, sponsors, investors for their activity. It is a remarkable worldwide window for Members and innovation actors to market their projects and ideas, reaching the appropriate professional audience. It is about a meeting of minds with a "brain cross-fertilization" effect.

23rd - 26th May 2011

Helsinki, Finland

Trainings

25/01/11 - 27/01/11 Upper Austrian Cluster Academy 2011 [«Back](#)

9/15/10 10:33 AM

For international observers, Upper Austria with its Clusterland Oberösterreich GmbH is perceived as a truly successful model of a "cluster region", due to its concentrated and visible efforts in supporting the set-up and professional management of 6 cluster and 3 network organisations over more than 13 years.

The 3-day workshop gives a detailed insight in our cluster management operations, covering areas of activities like knowledge management, initiation and support of cooperation projects, qualification and event management, marketing&PR, internationalisation.

A particular attention will be given this year to the financing mix important to ensure a sound self-financing ratio of the cluster organisations as well as to the evaluation and measuring tools of the cluster organisation performance (indicators, reporting system, customer satisfaction analysis).

This year's academy will also include direct visits to cluster companies (Softwarepark Hagenberg, Rosenbauer International) and find out more about their motivation of being active in a cluster and what benefits they get from that.

The speakers are themselves cluster managers and experts from our own organisations under the leadership of Werner Pamminer, general manager of Clusterland and cluster manager of the plastics cluster. The Cluster Academy Upper Austria is addressed to cluster & network managers, regional or national innovation agencies or other public institutions working with clusters and wishing to learn directly from experienced practitioners.

Alpine Space The Alpine Space Programme is the EU transnational cooperation programme for the Alps. Partners from the seven Alpine countries work together to promote regional development in a sustainable way. During the period 2007-2013, the programme is investing 130 Mio € in impact-oriented projects in which key actors develop shared solutions on specific Alpine issues as laid down in the programme objectives: Priority 1: Competitiveness and Attractiveness Priority 2: Accessibility and Connectivity Priority 3: Environment and Risk Prevention	0	1	1	Actions
CIP With small and medium-sized enterprises (SMEs) as its main target, the Competitiveness and Innovation Framework Programme (CIP) supports innovation activities (including eco-innovation), provides better access to finance and delivers business support services in the regions. It encourages a better take-up and use of information and communication technologies (ICT) and helps to develop the information society. It also promotes the increased use of renewable energies and energy efficiency.	0	0	0	Actions
FP7 The Seventh Framework Programme (FP7) bundles all research-related EU initiatives together under a common roof playing a crucial role in reaching the goals of growth, competitiveness and employment; along with a new Competitiveness and Innovation Framework Programme (CIP), Education and Training programmes, and Structural and Cohesion Funds for regional convergence and competitiveness.	0	61	61	Actions
Germany German calls with regional, national as well as European or international relevance.	0	1	1	Actions
Grundtvig The Grundtvig programme focuses on the teaching and study needs of learners taking adult education and 'alternative' education courses, as well as the organisations delivering these services. It aims to help develop the adult education sector, as well as enable more people to undertake learning experiences, notably in other European countries.	0	0	0	Actions

healthcare düsseldorf medica 2010 workshop hospital
9/23/10 2:23 PM

ZENIT GmbH and the Cluster Healthcare of North Rhine-Westphalia are organising an international workshop on how can hospitals/clinics contribute to the cluster development during the Medica fair at the Joint Stand of North Rhine-Westphalia the 19 November.
Mrs Michaela Evans from Cluster will present results about North Rhine-Westphalia, it is planned to have two examples from this region.
Currently we are looking for foreign speakers from the cluster area, which are interested to present their activities in this area and to discuss it with participants from Europe.

If you interested, please contact:
Juan-J. Carmona-Schneider
jc@zenit.de

Enterprise Europe Network - Europe...

Start Cluster Organisations x Communities Information Marketplace Trainings

Enterprise Europe Network [OBJ]

Your business is our business

The Enterprise Europe Network helps small business to make the most of the European marketplace. Working through local business organisations, we can help you:

- Develop your business in [new markets](#)
- Source or license [new technologies](#)
- Access [EU finance](#) and [EU funding](#)

Click on the map
to find your
local branch

We have more than 570 member organisations from 45 countries across the EU and beyond. They include chambers of commerce and industry, technology centres, universities and development/innovation agencies. Most of them have been supporting local businesses for a long time. They know their clients' strengths and needs - and they know Europe. As members of the Enterprise Europe Network they are linked up through powerful databases, sharing their knowledge and sourcing technologies and business partners across all Network countries. But they are also closely linked with the European Commission, which enables them to keep abreast of EU policies and to feed small companies' views on them back to Brussels.

Services tailored to small companies

The mapping below gives an orientation about existing cluster organisations, but only when the cluster organisations register with their own profile, only then we can talk about a real mapping, based on the real sectoral and regional classification. We can never assume the responsibility to say this is a cluster in a particular sector and region, just because we identified it through its available different sources. The organisations with a profile are marked in blue, those without profile in red and where we found more organizations at the same address, in grey. If you want to see an example of a cluster organisation profile, click here: [>> Example Mechatronics Cluster Upper Austria](#)

Factsheet - European Cluster Collabor...

ClusterCollaboration.eu

Start Cluster Organisations Communities Information Marketplace Trainings >> Mechatronics Cluster <<

- Profile/Staff
- Factsheet**
- Benchmarking
- My Members
- Collaboration

The aim of this section is to provide a quick overview in facts and numbers of the cluster structure, activities, dynamics and performance. It is intended to be used as a template for the factsheet of your cluster organisation. It is recommended to use the factsheet as a starting point for the factsheet of your cluster organisation, but also keeping in mind that the time cluster organisations have for filling such a template is not unlimited. Should there be a need to increase and extend the indicators and the analysis, we kindly ask you to provide feedback on the start page.

The indicators below also represent the basis for the benchmarking process. This is visible only for the administrator. Benchmarking is possible only when 5 or more cluster organizations from the same sector filled in their respective indicators.

1. Maturity (from the year of foundation)	7
2. Number of members	310
2.1 Businesses (number)	270
2.2 Research/Knowledge organisations (number)	40
2.3 Public organisations (number)	0
3. Percentage of SMEs within the total number of members	0
4. Paying membership (yes/no) ?	No
5. Number of staff (Full Time Equivalents)	6
6. Annual budget (invisible)	less than 50.000 €
7. Self-financing rate [%] (invisible)	70
8. Number of projects carried out in the past 12 months	16
<i>subsidised projects</i>	12
<i>regional</i>	8
<i>national</i>	1
<i>international</i>	3
<i>non-subsidised projects</i>	4
